## Buy Like the Big Boys Do With PowerPurchasing From B2Bgalaxy.com

You need an e-commerce solution to keep pace with your competitors. But which solution is right for you? Consider PowerPurchasing, the award-winning\* Internet-based purchasing system. PowerPurchasing is a complete procurement solution for mid-sized businesses. Affordable, rich in functionality yet easy to implement and use, it has been designed for purchasing operations exactly like yours.

**PowerPurchasing generates significant cost savings.**

**PowerPurchasing reduces the time and effort required to effectively manage your procurement process.**

**PowerPurchasing greatly reduces errors and omissions that exist in your procurement process today.**

## A Reliable Supply of Best-Priced Goods

Whether you purchase by comparing prices from multiple vendors, or single source a product or set of product categories, PowerPurchasing helps you obtain the best prices, quality and service from your suppliers.

You'll spend less time achieving far better results that measurably lower your cost of goods.

**PowerPurchasing drastically reduces the time it takes to collect and interpret prices. It's like having the most advanced purchasing agent working exclusively for you!**

## Key Features and Benefits

PowerPurchasing's easy-to-use Internet-based application:

- ▶ Gathers prices, provides at-a-glance comparisons and automatically generates purchase orders
- ▶ Reduces purchasing time from hours to minutes
- ▶ Provides instant access to product data, vendor information and purchase orders from one convenient and secure Web site
- ▶ Generates efficient management reports
- ▶ Informs vendors what percentage of an order they received, as incentive for future best-pricing
- ▶ Maintains a password-protected archive of POs and product lists, that you can access anytime, anywhere
- ▶ Allows a corporate office to manage or monitor procurement for multiple locations

## How It Works

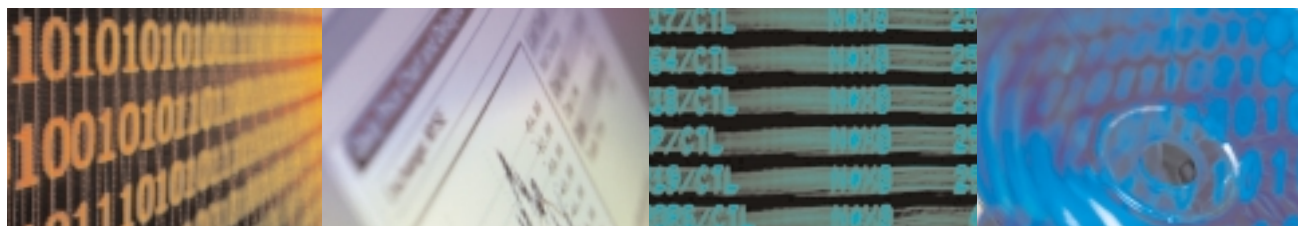

PowerPurchasing is a complete procurement solution that enables you to buy from your current vendors. PowerPurchasing is available as a Web-based solution hosted by B2Bgalaxy.com.

## Here Are the System Basics:

- ▶ Maintain your inventory product list on our secure database
- ▶ Vendors that you select update prices according to your purchasing schedule
- ▶ Vendors not on the Internet provide prices offline that you can enter into the system
- ▶ Upon order entry, PowerPurchasing automatically creates your purchase orders according to your rules. Use PowerPurchasing to compare prices from vendors on a line item basis or to buy products from a primary vendor

**Buy like the big boys, without the big investment. Get PowerPurchasing!  
From B2Bgalaxy.com.**

\*PowerPurchasing has been honored as best new product at two recent industry trade shows. In July 2000, Forbes.com recognized B2Bgalaxy.com as one of the top 200 B2B companies.
